8. Sewage disposal: ☐ Sanitary Sewer ☐ Aerobic Septic System ☐ Conventional Septic

Distance from Sewage Disposal: _____

9. Is public water available? What utility?: _____

10. Any other sources of potential contamination within 50': _____

11. How are existing wells being used?: _____

PART IV. APPLICATION SUBMITTAL PACKAGE MUST INCLUDE

____ (Initial) Declaration that the applicant or well owner will comply with well plugging guidelines and report closure to the applicable authorities, including or will provide a well closure plan.

- ☐ If applicant is not the owner of the property, provide documentation establishing the applicable authority to construct and operate a well on the owner's property for the proposed use.
- ☐ Warranty deed or Lease agreement.
- ☐ Construction diagram for Well Construction or Plugging.
- ☐ Pump Specifications.
- ☐ Site Map reflecting the location and setbacks of the following: Proposed Well, Existing Wells, Property Lines, Septic Tank, Drain Field or Spray Area, Structures, Neighboring Septic Systems (within 100'), any source of contamination within 50'. Including, location of existing or new production monitoring devices and water use facilities.
- ☐ If groundwater is to be resold, provide a description of the following: 1) the service area, the metering and leak detection and repair program, 2) the drought or emergency water management plan, and 3) information on each customer's water demands, including population and customer data, water use data, water supply system data, wastewater data, water conservation measures and goals, and the means for implementation and enforcement.

PART V. REQUIRED DOCUMENTATION

(NON-EXEMPT WELL APPLICANTS, WELL CAPACITY ABOVE 10,000GPD OR 6.94GPM))

- ☐ Evidence the applicant has legal authority to produce groundwater associated with the land surface and the permit application. (District Rule 5.3(b)(4)) **DISTRICT PROVIDED AFFIDAVIT FORM**
- ☐ Including any documents that transfer the right to own, control, or produce the groundwater rights to another person/entity that are associated with land surface and the permit application.
- ☐ Hydrological Study Type 1 to be submitted for wells producing from 250gpm to 500gpm; or Hydrological Study Type 2 to be submitted for wells producing from 500gpm or more. (District Rule 5.3(14)(A-B))

Physical: 12274 Bandera Rd. #106-107, Helotes, TX 78023 | Mailing: PO BOX 1589, Helotes, TX 78023
 Ph: 210-698-1155 | Fax: 210-698-1159 | office@tgrgcd.org | www.trinityglenrose.com

____ (Initial) A declaration that the applicant / permittee will comply with the District's Drought and Conservation Management Plan.

Part VI. Certification

I hereby swear or certify that the information in this application is true and accurate to the best of my knowledge and belief and agree to abide by the District's Rules.

Print Name	Signature	Date
------------	-----------	------

PLEASE NOTE:

1. Once an application is approved to drill, modify or plug the authorization is effective for one year from date of issuance.
2. Any application that is incomplete will not be deemed administratively complete and processed until all required information is provided. Administratively incomplete applications will expire if not completed within 60 days from the day the District requests information.
3. A geophysical log is required to be submitted in both electronic and paper copy to the District, Rule 7.4.
4. The District may access the well location and conduct a well inspection gathering construction data.
5. All wells capable of producing more than 25,000 gallons per day (17.36gpm), are required to be metered, report and and adhere to the District's production fees. District Rule 8 & 13.
6. Additional information may be found in the District Rules located at, www.trinityglenrose.com.
